

4a. Fruit and Vegetable Calculation Worksheet Answer Key

Practice Exercise 1

WIC fruit and vegetable check maximum cash value \$8.00

Items you have already scanned:

1-lb. bag of baby cut carrots	\$1.39
2 lbs. of fresh green beans	\$3.38
4 lbs. of bananas	\$2.96

SUBTOTAL \$7.73

Items remaining on checkout:

2 navel oranges, \$.69/ea.

1. Does the value of the WIC check cover the remaining items?

YES

NO

2. If the answer is no, what are the options you could provide to the customer?

- **Return one of the items (or portions of an item) already scanned.**
- **Complete a split transaction. Allow \$8.00 of the total dollar amount to be processed by the WIC check. The customer may then pay the difference by cash, credit, or debit.**

4a. Fruit and Vegetable Calculation Worksheet

Answer Key

Practice Exercise 2

WIC fruit and vegetable check maximum cash value \$4.00

Items you have already scanned:

1 whole cantaloupe	\$1.35
1 package of sweet grape tomatoes	\$1.29

SUBTOTAL \$2.64

Items remaining on checkout:

1 lb. of plums, \$1.29/lb.

1. Does the value of the WIC check cover the remaining items?

YES

NO

2. If the answer is no, what are two options you could provide to the customer?

N/A

Practice Exercise 3

WIC fruit and vegetable check maximum cash value \$11.00

Items you have already scanned:

3-lb. bag of mixed apples and oranges	\$3.99
1 head of iceberg lettuce	\$1.21

SUBTOTAL \$5.20

Items remaining on checkout:

1 container of organic strawberries, \$5.98/ea.
12 ears of fresh sweet corn, \$.30/ea.

1. Does the value of the WIC check cover the remaining items?

YES

NO

2. If the answer is no, what are two options you could provide to the customer?

- Return one of the items (or portions of an item) already scanned.
- Complete a split transaction. Allow \$11.00 of the total dollar amount to be processed by the WIC check. The customer may then pay the difference by cash, credit, or debit.
- Suggest replacing the organic strawberries with lower-priced, conventional strawberries.
